

I. OVERVIEW

The Special Projects Division – Kasambahay Section continues to implement various orientations, activities, and programs in line with the enforcement of Republic Act No. 10361 or the *Batas Kasambahay*. These initiatives aim to promote awareness of rights and benefits, strengthen organization among Kasambahays, and improve access to social protection and government services.

II. DEMOGRAPHIC PROFILE

Figure 1: Employment Arrangements

2024 and 2025 Data	Live -in	Live - Out	On call	Total
	1,919	2,149	498	4,566
January to April 2026	463	301	139	903

The consolidated data on Kasambahay employment arrangements for 2024 and 2025 recorded a total of **4,566 domestic workers**, consisting of *1,919 live-in*, *2,149 live-out*, and *498 on-call* workers. The data shows that live-out kasambahays had the highest number, indicating a growing preference for non-residential work arrangements.

From January to April 2026, a total of 903 **kasambahays were recorded**, including *463 live-in*, *301 live-out*, and *139 on-call workers*. Live-out workers remained the highest in number, while the increase in on-call workers reflects a growing demand for flexible domestic work services.

Figure 2: Job Categorizations:

2024 and 2025 Data	Yaya	Cook	Laundry	Gardener	Total
	498	756	507	53	1,814
January to April 2026	95	342	77	71	585

The data on kasambahay of job categorizations for 2024 and 2025 recorded a total of **1,814 domestic workers**. Cooks had the highest number with *756 workers*, followed by laundry workers with *507*, yayas with *498*, and gardeners with *53*. This shows that **cooking, childcare, and laundry services are the most needed household roles**.

From January to April 2026, a total of **585 kasambahays were recorded**. Cooks remained the highest with *342 workers*, followed by yayas with *95*, laundry workers with *77*, and gardeners with *71*. The increase in gardeners indicates a growing demand for household maintenance services.

Overall, the data reflects the continuing demand for cooking and childcare services and highlights the need for skills training and support programs for kasambahays.

Figure 3: Length of Service.

2024 and 2025 Data(source: ODK LMIS DATABASE 2024-2025)	3-5 years	5-10 years	10-20 years	20-30 years	30-40 years	40-50 years	50 years and above	Total
	489	322	194	62	22	33	66	1,188
January to April 2026	-	-	-	-	-	-	-	

Based on Open data kit (ODK) YEAR 2024 TO 2025 NOVEMBER

Figure 4: Age brackets

2024 and 2025 Data	Age 18-30	Age 31- 45	Age 41 above	Total
	396	1375	2360	4131
January to April 2026	132	291	462	885

The table shows the age brackets of kasambahays for 2024 and 2025 recorded a total of **4,131 domestic workers**. The majority belonged to the age group 41 and above with **2,360 domestic workers**, followed by ages 31–45 with **1,375**, and ages 18–30 with **396**.

From January to April 2026, a total of **885 kasambahays were recorded**, with **462 domestic workers** aged 41 and above, **291** aged 31–45, and **132** aged 18–30.

Overall, the data shows that most kasambahays belong to the older age group, indicating that domestic work is largely sustained by experienced adult workers rather than younger individuals.

Figure 5 : Sex

2024 and 2025 Data	Female	Male	Total
	4223	343	4566
January to April 2026	864	39	903

The data on the sex distribution of kasambahays for 2024 and 2025 recorded a total of **4,566 workers**, of which *4,223 were female* and *343 were male*. This indicates that the kasambahay sector remains predominantly **female-dominated**.

From January to April 2026, a total of **903 kasambahays were recorded**, including *864 females* and *39 males*. The data continues to show a significantly higher number of **female workers compared to males**.

Overall, the figures highlight that domestic work is still primarily carried out by women, emphasizing the importance of gender-responsive programs, protection, and welfare support for female kasambahays.

Figure 6 : Educational Attainment

2024 and 2025 Data	Elem. Grad.	Elem. Under grad	HS. Grad	HS. Undergrad	College Graduate	Col. Under grad	Vocational	Total
	308	306	784	524	83	152	43	2,200
January to April 2026	78	117	305	257	13	80	23	837

The data shows that most kasambahays are high school graduates and high school undergraduates. In 2024–2025, High School Graduates recorded the highest number (784), followed by High School Undergraduates (524). The same trend continued from January to April 2026, with 305 High School Graduates and 257 High School Undergraduates.

Elementary-level workers also make up a large portion of the sector, while college graduates and vocational graduates recorded the lowest numbers. This indicates that most kasambahays have basic to secondary education only.

The findings highlight the need for continuous skills training, education support, and livelihood programs to improve employment opportunities and career growth for kasambahays.

Figure 7 : Social Benefits:

2024 and 2025 Data	SSS	PHILHEALTH	PAG-IBIG	QC ID	Total
	482	505	207	564	1,758
January to April 2026	90	107	87	172	456

The data shows that many kasambahays are enrolled in social protection programs, with QC ID having the highest number of beneficiaries, followed by PhilHealth and SSS. In 2024–2025, Pag-IBIG recorded the lowest number, indicating lower participation in housing and savings programs. From January to April 2026, QC ID remained the most accessed benefit, while Pag-IBIG participation showed improvement. Overall, the figures reflect increasing awareness and access to social benefits among kasambahays, but continued information and registration assistance are still needed to improve coverage.
